Final Reflection

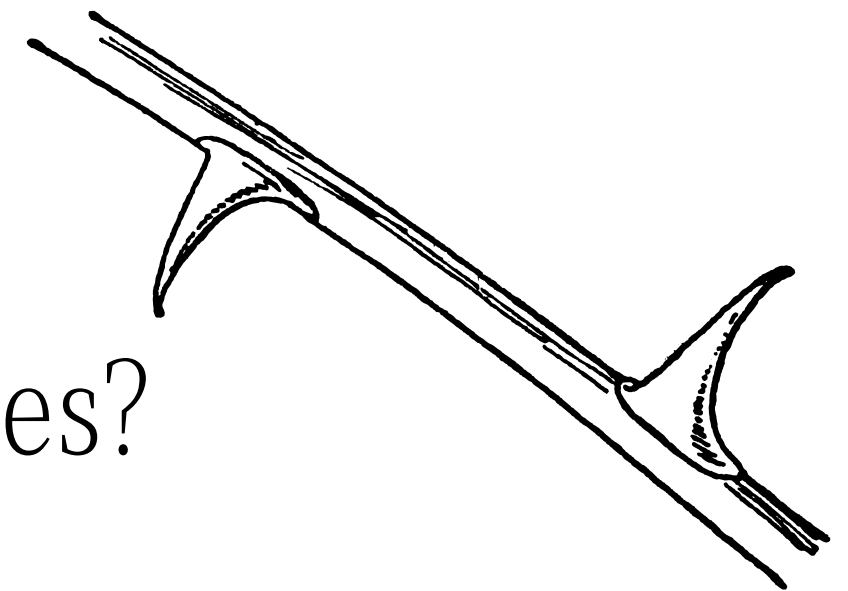

Reflection Prompts

Start with the roses. The aim is to identify areas of excellence. You could ask questions such as:

- What was your highlight today?
- How have you been successful?
- What are you most proud of?

Move onto the thorns. Here we want to identify the challenges so we can work out how to overcome them. Ask your team:

- What was most stressful?
- What are the causes of these difficulties?
- What made it hard to be successful?

Lastly, let's identify the buds. These are the areas of growth, the emerging possibilities and the future opportunities. Ask your team:

- What are you looking forward to?
- Describe opportunities for learning that excite you
- What needs growth or nurturing?
